19. Responsibility for On-Site Conduct of Service Providers
20. Occupancy by Non-related Guests
21. Calendar Restrictions for Renovation Projects

General Information Guidelines

1. Emergency Procedures

- a. Emergency fire, police, and ambulance – call 911.
- b. Fire. Fire alarms are located near both stairways on each floor (including ground) of each building. In case of fire pull handle down.
- c. Contact the DBCA Board of Directors after you have called the authorities for an emergency that involves any area of the DBCA rules and regulations.

2. Alarm Systems

- a. Fire Alarm. You will have no problem hearing this alarm which will sound inside your Unit when there is an apparent emergency. Exit your Unit immediately (using the stairs). Do not return to your building until advised that it is safe to do so.
- b. Electrical Rooms in Garage. It is not uncommon that you may hear either a low volume, high pitched tone or a buzzer emanating from the electrical room. These are generally the result of a power failure or lightning, and indicate that certain equipment needs to be reset. **These are not emergency situations, and no action by owners is required.** This equipment will be reset in due course by appropriate personnel. If you hear one of these advisories during the day, you can certainly advise our on-site maintenance person (941-404-0228) or the Monitor for your Building.

3. Building Monitors to call for help with alarms or emergency water shutoff are:

Building A: Bill Kamm (513-703-6206)

Building B: Bob Palmer (941-346-0064)

Building C: Jayne Roose and Keith Staudt (214-236-5551)

Clubhouse: Bill Kamm (513-703-6206)

If the Monitor is not in residence, you may contact any Board Member.

4. Accidental Fire Sprinkler Flooding In Units

In the event of a broken sprinkler head, do the following to reduce water damage. If two people are at home, one person should wrap a towel around the broken head while the other person shuts off the water using these steps:

- i. **Go to the sprinkler valve station.** These stations are located on each floor at the north end of Bldg. A, and the east end of Bldgs. B & C. (i.e., near the porches of Unit numbers ending in “01”). Next to the valve station is a glass door fire hose cabinet with laminated instructions and a screwdriver. Use the screwdriver to open the valve station door.
- ii. **Identify sprinkler valves.** They have a thin plastic seal looping around the handle. These seals are ONLY to show that inspections have been completed. They are designed to break when it is necessary to shut off and open valves.
- iii. **Shut off the inflow** by turning the “bronze/yellow” valve clockwise until it stops. (NOTE: on the 5th floor of each bldg., this valve is BLUE or BLACK).
- iv. **Open the “blue drain lever” valve** by turning it so the handle is parallel to the pipe. (NOTE: some stations have two blue valves on the drain line. The lower valve can be ignored—regardless of the position of the lever valve.)

****Step “iv” is very important as it will stop the water already in the pipes from draining into the room with the broken head.**

- v. Sprinkler flow is now shut off! The monitoring company will receive a signal and the Fire Department may be deployed. Piper Fire Protection will come to replace the sprinkler head and return valves to their original positions.

Piper Fire Protection Service: 941-232-4908.

5. Plumbing – In Unit Flooding

- a. Turn off the main water inlet valve next to water heater. In Buildings A and B this valve is located before your water meter. Building C does not have water meters, so make sure you have this valve located and clearly marked.
- b. If you cannot shut off water flow inside the residence (the owners are away or the valve is not functioning properly), go to the garage and shut off water to the entire column of units by closing the appropriate valve. These valves are located at the ceiling under each column of units and are clearly marked with red paint and hanging tags. The valves controlling the two end columns in each building are gate (lever) valves, and those controlling the interior units are

conventional valves with either a circular or star shaped handle. Laminated Emergency Water Shutoff instructions with photos are in the trash rooms. Use the step ladder from the trash room to reach the valves.

6. **Elevator Emergency** - If a power or other failure traps you in an elevator: Push the  button on the control panel. This will connect you to the emergency monitoring company that will be able to provide direction and support. Please note this will also activate the in-elevator video camera located on the control panel.

7. **Smoke Detectors**

Units have smoke detectors. It is recommended that smoke alarm batteries be changed once a year. They require a 9V battery. When the battery is low, the smoke alarm will beep and it will not stop beeping until the battery is changed.

8. **Preparedness for High Winds, Tropical Storms, Hurricanes**

In the event of approaching high winds, tropical storms, and hurricanes, a number of precautions must be taken between June 1st and November 30th to preserve the safety of our community. Some of these precautions are the responsibility of management, and others are the responsibility of the unit owners as follows:

a. Management:

- i. Remove and store potted plants from the entrance gate.
- ii. Secure or remove trees or plants bordering our property with Gulf & Bay Bayside that are considered a threat.
- iii. Remove and store hoses and loose items from the dock area, as well as pool furnishings and plants around the clubhouse.
- iv. Remove and store tennis court nets and windscreens.

b. Unit Owners:

- i. Those unit owners or their assignees absent at any time during the June 1—November 30 period must remove all plants, furnishings, and loose items from patios, porches and open lanais for the duration of their absence.
- ii. Those “in residence” for the June 1—November 30 period are solely responsible for the timely removal of items listed above from patios, porches and open lanais if the threat of high winds, storms, or hurricanes is present. Owners should not ask the on-site maintenance person to remove such items.

- iii. No vehicles should be left in the Bldg. A turnaround (danger of falling trees) or a potentially dangerous area unless a key is left with an on-site neighbor or management so that the vehicle can be moved to a safer area if necessary.
- iv. Your cooperation with the above simple but important rules is essential.
 - 1. Plants, furniture, and loose items can become life-threatening missiles in a storm. Should damage or injuries occur because of failure to comply, the unit owner will be held liable and responsible.
 - 2. Maintenance, during their normal course of maintaining the walkways and stairways, will report to management any units not in compliance. If management must remove plants, furnishings, etc. due to non-compliance, these items will be placed inside the unit and the owner fined \$100. Management will have no further responsibility for these items-i.e., the items will not be returned outside after the storm. Should any non-compliant unit be inaccessible (no key with management, for example), the items will be removed to a safe place and will not be released until the owner has paid a \$350 fine.
 - 3. Please ensure compliance with these measures to avoid damage, injury or unnecessary charges. Please notify management if you make arrangements for removal with an on-site neighbor, ensuring that they are fully aware of their responsibility—they must act as you would in similar circumstances. Responsibility for compliance cannot be transferred to outside services (i.e., Plant Parents) as performance in such situations cannot be guaranteed by management.
 - 4. Please remember that we are the “community of Dolphin Bay”. We are more than “just neighbors”, and we all should stand ready to help each other and use common sense to comply with these rules for the safety of the community.
- v. There is a significant risk of explosion and fire from electric vehicle (EV) batteries when contacted by salt water; therefore, electric vehicles must be removed from all garage areas and should not be parked within 50 feet of any building or structure. Since the danger of explosion and fire can occur up to several weeks after exposure to salt water submergence, EV’s that have been even partially submerged shall remain outside of garages and at least 50 feet from structures for a minimum of 30 days after the flooding event.

9. Preparations When Leaving Your Condo for an Extended Absence

- a. Newspapers - stop delivery
- b. Mail - stop or forward your mail
- c. Close and lock all windows and sliding doors
- d. Open all drawers where there is clothing
- e. Open the closet doors and leave bedroom doors open
- f. Turn off water to unit
- g. Unplug water heater
- h. Turn off ice maker
- i. Turn off water to washer
- j. Bring in lanai and porch furniture, plants and any loose objects that could be blown around during heavy winds possibly causing damage and injury. **Bring in everything!**
- k. Pour one cup of cooking oil in all drains and toilets - this will tend to diminish evaporation of water in toilet bowls and sink traps, thus minimizing intrusion of sewer gases.
- l. Cover toilet seats with plastic wrap and close lid.
- m. Set air conditioner at 78 degrees to prevent the formation of mildew in the closed-up unit.
- n. Give your perishables to a neighbor, make sure a set of car keys are left with the management if car is left on premises
- o. Do not leave car parked in turnaround area
- p. Lock doors and have a safe trip

10. Garage Digital Key Pad Operation

The battery (or batteries) in the digital key pad located on the side of each garage must be changed **annually** to avoid losing the set code. If battery power expires, the personal 4-digit access code must be reset.

11. Entry Gate Access

- a. The gate closes after each car passes through. Be sure to wait until the gate closes and reopens before entering or exiting the gate.
- b. Your visitors may enter the gate by entering your access code.

12. Pest Control

Pest control services occur quarterly outside and within units. If you are not at home, management will unlock and lock your door. The pest service will leave a card

advising you that the unit has been serviced. If a pest problem occurs, contact the on-site maintenance person (941-404-0228).

13. Trash and Recycling

- a. Garbage and trash, OTHER than recyclable materials, should be bagged in plastic and put down the chute located on each floor near the elevator. No garbage or trash should be left in the chute closet. Under the chute is a large dumpster. Recyclables should not be left in chute closets. Do not carry or put leaking bags or containers down the trash chute.
- b. The trash room is located on the ground floor, near the elevator. In addition to the large dumpster there are bins for recyclable materials. NO plastic bags.
- c. Corrugated cardboard boxes should be broken down and placed in recycling bins. If there is no room in the bins, the broken-down boxes may be placed along the side of the bin or taken to one of the other buildings for disposal. Paperboard (cereal boxes without liners, soda boxes, tissue boxes, etc.) is accepted. Pizza boxes go in the dumpster.
- d. Garbage, trash and recyclable materials are collected once a week: recyclables on Mondays, garbage and trash on Tuesdays.

14. Contractors Working on Owners' Units

- a. Owners are responsible for the behavior and actions of the contractors they have hired to work on their units. In consideration of the neighbors the noise from loud radios should be controlled by the owner. It is also the owner's responsibility to ensure that debris and trash are not left by contractors in common areas.
- b. Any damage to common areas of condo property caused by owners' contractors is the responsibility of the owner who hired them. Anyone who notices contractors damaging association property should immediately notify the on-site maintenance person (941-404-0228).

15. Buildings and Grounds Protocol

- a. Please use the walkways and do not cut through the flowers and planted areas.
- b. When parking near a curb, please be careful not to bump the irrigation sprinkler heads (they damage easily and are costly to replace) or run over plants.
- c. No smoking is permitted in the elevators. Discard smoking materials in the container next to elevators.

- d. Report any spill, mess or unsightly situation to the on-site maintenance person (941-404-0228). Cleaning and maintenance of front porch gate areas and garages is the resident's responsibility.
- e. When notified that the common balcony walk ways are to be power washed, owners are requested to move personal items on the porches away from the railings. Cleaning personnel will enter the porches to more efficiently clean the adjacent walkway by directing the spray outward. Cleaning personnel will not clean the tile on owner's porches. This is the owner's responsibility.
- f. Owners are encouraged to have fun at the beach but should avoid bringing sand into garages, elevators, residential buildings, Clubhouse and Fitness Room. It is suggested that when returning from the beach you stop off at the car wash opposite the tennis courts and get rid of the sand.

16. Dolphin Bay Committees and Responsibilities

Each committee has a chairperson and a Board Member liaison.

a. Architectural Review

Review all requests from owners and other committees for any improvements or changes to any buildings, grounds or facilities in the complex and provide recommendations to the Board for their approval. The purpose is to prevent changes which detract from the general uniformity and overall appearance of the complex.

b. Buildings and Grounds

Monitor the cleanliness and routine maintenance and upkeep of the buildings. Work with the on-site maintenance person (941-404-0228) to solve problems and advise the Board of any changes deemed appropriate.

c. Clubhouse

Oversee the Clubhouse physical condition and bring any maintenance or improvement suggestions to the Board.

d. Condo Documents and Rules

Coordinate the periodic review of Condominium documents and Association Rules and Regulations. Recommend changes and revisions to the Board.

e. Finance

Work with Board on financial issues. Review monthly financial statements with Treasurer and Board. Periodically review bank accounts and propose any changes to Treasurer and Board.

f. Fitness Room Committee

Ensure a clean, safe, and functional room for the fitness needs of the owners. Responsibilities include supplies kept at appropriate levels.

Arrange for professional maintenance, cleaning and service of equipment as required. Bring suggestions for improvements and necessary actions to the Board for review and approval.

g. Holiday Decorating Committee

Coordinate decorating the Clubhouse and the grounds in December and other holiday times. Oversee the removal and storage of holiday decorations.

h. Insurance

Review insurance policies pertaining to the Condominium and negotiate new and renewal policies as necessary to provide adequate coverage at the most reasonable price.

i. Landscape

Work with on-site maintenance person (941-404-0228) and landscaping companies to ensure that the grounds are attractive and well maintained. Provide proposals to Board for new planting and removals that exceed the approved budget. Ensure that bylaws with respect to plants are enforced.

j. Newsletter/Directory

Publish a periodic newsletter for homeowners to keep everyone up to date on Dolphin Bay issues and events. When appropriate, emphasize any Rules and Regulations issues as requested. Update directory as needed.

k. Pool

Work with the on-site maintenance person (941-404-0228) and landscaping committee to ensure all maintenance issues are managed and the pool and spa are attractive and appealing to owners and guests.

l. Maintenance of Property

Monitor the cleanliness and routine maintenance and upkeep of the buildings and grounds. Work with the on-site maintenance person (941-404-0228) to resolve any problems and advise the Board of any changes deemed appropriate.

m. Maintenance Projects

Assist in leading large building-related projects from design to Board approval to completion and also be a technical resource to the Board to ensure that the structural integrity of our buildings is not compromised.

n. Sales and Rental Review

Assist the property manager in their administration of the Sales and Rentals Application & Review process including early identification of prospective sellers or renters and their compliance with existing documents and rules. In coordination with the property manager, make recommendations to the Board.

o. Social and Clubhouse Scheduling

Set a social schedule utilizing the Clubhouse, primarily for the purpose of creating a friendly atmosphere for owners and providing a way for new owners to meet their neighbors.

p. Tennis

Ensure that tennis courts are kept in good condition and that tennis regulations are complied with at all times. Bring maintenance issues to the attention of the Board. Work with Social Committee on setting up periodic social events, i.e., Tennis Round Robins, etc. to expand the number of players using the courts.

q. Technology

Assist the board or any of the committees in reviewing technology offerings for the purpose of matching their needs with current technology offerings; thus to create the best fit to meet objectives.

If you are interested in participating in one or more committees, please contact the appropriate Chairperson who will inform the Board.

Rules & Regulations

1. Common Areas, Walkways and Grounds

The Common areas are for the use and enjoyment of all owners.

- a. Common Areas must be kept free from litter, clutter and obstructions of any kind.
- b. No skateboarding or roller blading is permitted on residential building walkways, sidewalks, or in garage areas.
- c. Bicycles, kayaks, canoes, or other items of personal recreational equipment are to be stored only inside owner's garages.
- d. The parking space designated "Car Wash" is reserved for washing cars. It is not to be used as a parking space.
- e. No clothing, towels, etc. may be hung on railings, porches, walkways or stairways.
- f. Vehicle repairs, except for emergency repairs, are not permitted on the property. Vehicle painting is also not allowed.
- g. Walkways and sidewalks and accesses to them may not be obstructed. Owners and guests shall be particularly careful to not block access to the common area sidewalks leading from the circular paved/turn around area at the end of the entry drive near Building A to the waterfront behind Building A.
- h. Washing of vehicles in the garage is not permitted. Please use the "car wash" area west of Building C.

2. Common Areas Uniformity

Owners are advised to read Section 9.6, Page 11 of the Condominium Declaration. No unit owner may make any structural changes to the interior of his or her unit and may not change the exterior appearance of the condominium property without first submitting plans and specifications to the Association and obtaining the prior written consent of the Association Board of Directors in the manner required by the Condominium Declaration.

3. Screen Doors/Enclosed Lanais/Glass Sliders/Windows

Owners desiring to install screen doors, enclose lanais, glass sliders or windows must receive prior authorization from the Board. Please review current requirements with your contractor and a Board Member before signing a contract.

4. Elevators and Expected Moving or Deliveries

- a. Elevators must be kept free of all clutter. In the interests of safety, unattended small children (under five years of age) are not permitted in or near elevators.
- b. Any need for extended use of elevators, such as for moving or delivery of large numbers of furniture/appliance items requires 24-hour advance notice to the on-site maintenance person (941-404-0228) so he can place the protective coverings on the elevator walls and floor.

5. Association Access

- a. The Association has the irrevocable right and responsibility to enter any apartment, porch, attic or garage for remedying or abating the cause of any emergency condition and to prevent damage to common elements or to other Units, regardless of whether the owner is present. Since such right of entry must be immediate for emergencies, the owner of each unit shall deposit with the on-site maintenance person (941-404-0228) a key or keys or code to the front door locks of such unit and the key for the emergency latch to their garage.
- b. The Association has the irrevocable right and responsibility to enter the buildings, apartments and limited common elements including garages and attics for maintenance, repair and replacement of common elements and routine pest control at reasonable times and with reasonable advance notice. In order that maintenance and repairs can be made and pest control can be performed on schedule in the absence of the owner, the owner must deposit with the on-site maintenance person (941-404-0228) the entry alarm code if there is an armed entry alarm in addition to keys.

6. Dock

- a. The dock is for the use of owners, tenants and their guests.
- b. Children under the age of 12 must be accompanied by an adult when using the dock.
- c. Only non-breakable cups and containers may be taken on the dock.
- d. Before leaving the dock, all trash must be removed. The fish cleaning area must be cleaned and the hose left in place.
- e. Mooring of boats overnight is not permitted.
- f. Owners operating or mooring boats at the dock will observe all pertinent U.S. Coast Guard regulations.

7. Unit Rentals/Sales

a. Unit Rentals

- i. Approval. No unit may be rented without the prior written approval of the Association. Applications for that approval shall be made on forms distributed by the Association providing the full name of the tenant and all occupants, the lease terms and such other information as the Association may reasonably require. The Association shall approve or disapprove the completed application within ten (10) days of its receipt.
- ii. Minimum term. No unit shall be rented for a term of less than ninety (90) days.
- iii. Subleases. No unit shall be subleased.
- iv. Pets. No pet of any type shall be allowed in a rental unit.

b. Unit Sales

- i. Owners must provide written notice of proposed sale and request for approval. Applications for that approval of unit sales shall be made on form “Application for Approval of Unit Sale” distributed by the Association. The completed form shall be forwarded to Progressive Community Management, Inc. for approval by the Dolphin Bay Condominium Association.

8. Pets

- a. Must be under control and on a leash at all times. Owners shall pick up their pet's waste and dispose of it properly.
- b. Owners are not permitted to have more than one (1) traditional house pet on the property. The pet will not exceed 45 pounds in total weight. No wild or exotic pets are allowed on the property. This applies to visitors' pets also.

9. Vehicles

- a. Speed Limit. No vehicle may be operated within the Dolphin Bay Community at more than ten (10) miles per hour.
- b. Parking.
 - i. Open Parking. Unit owners, tenants and guests may park in the marked parking spaces along the entry road but shall not park in the roadways, walkways, lawns, or any other common area not specifically designated for parking.
 - ii. Garage Parking. No vehicle may be parked in or in proximity to a garage other than in the applicable

assigned garage parking space, except that in Building A only, a vehicle may be parked in front of its assigned garage space so long as it does not impede access to anyone else's garage space and there is no complaint from an affected owner. In no event shall any vehicle be parked in any area posted by the Association with a "NO PARKING" sign.

- iii. Keys for Unattended Vehicles. Any person leaving a vehicle parked at Dolphin Bay during any absence of more than seventy-two (72) hours shall leave a key to the vehicle with the on-site maintenance person so that the vehicle may be moved if required in case of emergency conditions.
- iv. Towing. The Association may cause any vehicle parked in violation of these rules to be towed at owner's expense, in compliance with the applicable law.

10. Moving and Delivery

Any person expecting a moving van or delivery truck which must temporarily block a parking space or garage shall notify all affected residents in sufficient time for them to move vehicles as may be needed. Such vehicles shall be parked so as to avoid such inconvenience when possible by parking along the roadway while loading and unloading, leaving sufficient room for other vehicles to pass. When any elevator is to be used in moving delivery furniture, appliances or other large items, the owner shall arrange in advance with the on-site maintenance person (941-404-0228) for the installation of protective pads to the elevator floor and walls.

11. Propane Grills

- a. The use of propane grills in the Dolphin Bay residential buildings is permitted only on the open entry porches or uncovered patios.
- b. The storage or use of LPG cylinders on the open entry porches shall be limited to cylinders each with a maximum water capacity of 2.7 lb. (1.2 kg) and shall not exceed 5.4 lb. (2.4 kg) aggregate water capacity per each living space unit.
- c. LPG cylinders may not be placed on common element ingress/egress routes such as the common walkways and stairways.
- d. LPG cylinders with a maximum water capacity greater than 2.7 lb. (1.2 kg) may not be transported through or stored in each living space unit including lanais or in garages.
- e. The storage or use of LPG cylinders on the uncovered ground level patios shall be limited to cylinders each with a maximum water capacity of 20 lb. (8.8 kg)

12. Association Clubhouse Use

- a. Owners may reserve the clubhouse for private parties by signing the calendar hanging on the bulletin board in the clubhouse. The Social Committee chairperson keeps track of that calendar.
- b. Owners who use the clubhouse for private parties are responsible for cleaning the clubhouse to Committee satisfaction. If the clubhouse is NOT returned the way it was before the private party, the owners who held the private party will pay for cleaning and damage repairs.
- c. Reservations made by the Association for its own gatherings shall take precedence.
- d. There shall be no loud music, singing or shouting which would be disturbing to the Dolphin Bay community, or violate Sarasota County Regulations.
- e. No posters, balloons, etc. shall be hung on the walls or from the ceiling.
- f. Number of guests allowed at any gathering inside the clubhouse shall not exceed that allowed by Fire Marshall (60).
- g. Paper goods in kitchen area are for community use only, not for private parties. Owners should provide their own paper goods for private parties.
- h. No smoking in clubhouse at any time.
- i. No wet clothing or wet shoes are permitted in the clubhouse at any time. Residue from the HarTru tennis courts and water from wet shoes or clothing will damage the floors.

PLEASE NOTE: In the event of a large private party, parking may pose a problem, especially during the season when more owners are in residence. Notifying your guests to carpool may be a solution.

13. Swimming Pool Rules

- a. The pool and spa are for the use of owners, renters and their guests. Guests other than house guests must be accompanied by their hosts.
- b. Children under the age of 12 must be accompanied by an adult when using the pool.
- c. No food, drink or glass is permitted in the pool or on pool wet deck (defined as up to 4 feet from the pool edge).
- d. Only non-breakable cups and containers may be used in the pool area.
- e. Children not toilet trained are required to wear swim diapers.
- f. Shower before entering pool.
- g. Pool chairs and furniture cannot be reserved in advance or saved.
- h. When leaving the pool area, the umbrellas should be collapsed.

- i. No rafts are permitted in the pool.
- j. No running, jumping or horseplay.
- k. No loud music or other audio.
- l. All Gates must remain closed.
- m. Pool hours: Dawn to dusk.
- n. No animals in pool or on pool deck, or inside the fenced-in pool area.

14. Hot Tub/Spa Rules

- a. Maximum capacity five (5) persons.
- b. Children under four (4) years of age not permitted in the spa (hot tub)
- c. Children under twelve (12) years of age must be accompanied and supervised by an adult.
- d. Pregnant women, small children, people using alcohol, narcotics or other drugs that cause drowsiness should not use the spa (hot tub) without first consulting a doctor.
- e. Shower before entering the spa (hot tub).
- f. No glass or animals are permitted in or near the spa (hot tub).
- g. No food or drink is allowed within 4 feet of spa edge.
- h. Maximum spa (hot tub) temperature is 104 degrees.
- i. Maximum Use of spa: 15 minutes.
- j. Spa hours: Dawn until Dusk.

15. Tennis Rules and Etiquette

The Dolphin Bay tennis courts are restricted for use by Dolphin Bay unit owners and their guests only. The following rules and etiquette should be observed by players at all times for the maximum enjoyment of everyone:

Tennis Dress Code: Players should be dressed in appropriate tennis attire, including wearing a shirt and regulation tennis shoes. No bathing suits or cutoffs will be permitted.

- a. Weekly sign-up sheets will be posted by the tennis committee on the tennis court bulletin board for play up to three (3) days in advance. Sign up will be on a first-in-line basis.
- b. Owners may sign up for other owners only if there is no one else in line waiting to sign up. Those who want to sign up for others must go to the end of the line to do so after they have signed up for themselves in the first round.
- c. An owner must accompany guests other than a house guest. Only house guests may play or hold a court if the owner is not there.

- d. All players must leave the court promptly but may move to a vacant court if that court has not been reserved by other players.
- e. No play is allowed between 1:00 p.m. and 4:00 p.m. Courts are watered daily at 1:00 p.m. and require several hours to dry.
- f. Tennis parties may be arranged if owners contact the tennis committee chairperson or a board member.
- g. Children under twelve (12) must play with adult supervision.
- h. All guests must sign in. **When signing in, all guests shall complete a waiver, release and hold harmless agreement in the form provided by the Association in order to use the tennis courts. Waiver sheets are provided on the tennis court bulletin board.**
- i. Tennis courts must not be used for any activity other than tennis.
- j. Court sign up will be limited to one court time per individual or group for each sign up.
- k. Court reservation will be forfeited if players are over ten minutes late.
- l. Courts are to be swept and lines cleaned by players after each use.

Tennis etiquette dictates waiting until the point is over before crossing in back of an ongoing game to either exit or retrieve a ball. Please return balls promptly when one rolls on your court. Use the sneaker washer when exiting through the clubhouse area. Thank you and enjoy your games.

16. Realtors

Realtors are permitted to show units or hold “open houses” at any time, provided:

- a. Open Houses - The listing agent or representative must be present at any open house and admit prospective buyers through the front gate by either being present at the gate, or by posting an entry code at the gate and indicating the code is valid for that day only.
- b. Other Showing - Showing Agent must call the listing agent or the listing agent’s call center, prior to each showing, to schedule and to receive instructions for showings. An electronic lock box may be on site provided it requires individual access codes and automatically keeps a record of usage details, including the realtor’s identity.

17. Parking

- a. Realtors and their guests must park automobiles in the properly designated “visitor” parking places nearest the gate.

- b. Houseguests staying overnight or longer must park their vehicles (after unloading their luggage) in the “Visitors Parking” area south of the tennis courts.
- c. During high-occupancy season (December 15th to April 30th), owners are encouraged to park their vehicles in their garages.
- d. Please note “Compact Cars Only” sign near gate to avoid blocking entering vehicles.

18. Responsibility of Suppliers, Vendors and Contractors

It is required that suppliers, vendors and contractors call our on-site maintenance person (941-404-0228) from the Main Gate before entering our Dolphin Bay property. This will allow us to work with them to see that they get the proper help and direction to meet their objectives.

If it is necessary to unload items for delivery to our owners, we can direct them to a temporary parking location so as not to interfere with our owners. If they will be working in one of our owner’s condos, they should park in Visitor Parking south of the tennis courts after unloading.

Even if they are monthly visitors, it is now required that they call our on-site maintenance person (941-404-0228) from the gate each time they arrive at Dolphin Bay.

19. Responsibility for On-Site Conduct of Service Providers

a. CONDUCT OF TRADESMEN HIRED BY OWNERS

- i. When a service provider is hired by an owner to perform work in his/her unit, the company or individual tradesman is also being invited onto the property of forty-nine other owners. For this reason, the hiring owner must be held responsible for the conduct of tradesmen while on Dolphin Bay property. Owners must arrange for the protective blankets to be hung in the elevator by contacting our on-site maintenance person (941-404-0228). Owners are encouraged to notify their neighbors of the dates of the proposed work.
- ii. Tradesmen must not use the luggage or grocery carts (these are exclusively for the use of owners and guests). Also, they are not permitted to deposit waste materials (such as tiles) in the dumpsters. They must remove all waste materials from Dolphin Bay property, and clean up any mess that they have caused. They must not park vehicles in

the garages. Owners must inform their tradesmen that these practices are not permitted.

- iii. For large renovation projects requiring substantial debris removal and new material deliveries, it is recommended that contractors use lifts or alternate safe means to reduce wear and tear on elevators.

b. ENTRY OF TRACTOR-TRAILERS THROUGH THE GATE

- i. As a general rule, tractor-trailers are prohibited from entering Dolphin Bay. There is no room for such a vehicle to turn around. Gate codes must NEVER be provided to drivers of such vehicles, as it guarantees that the gate board will be broken. This is because the gates operate by sensors in the asphalt which are programmed to close the gate after the second axle has crossed the sensor. Since there are still about 40 more feet of trailer following, the gate will close on the trailer roof and break.
- ii. Under special circumstances, such as for a moving van, permission may be granted by the Board if strict procedures are followed.
- iii. These procedures are as follows:
 - 1. The on-site maintenance person (941-404-0228) must be advised not less than seven days in advance of a planned move, who will advise a Board Member.
 - 2. If approval is granted, the on-site maintenance person (941-404-0228) will disable the gate mechanism and advise the driver how to enter, where to park, etc. and will also post signs in the elevators, if needed, advising residents where NOT to park vehicles, and will place traffic cones in the space reserved for the long vehicle.
 - 3. Cooperation by all involved will facilitate the truck loading/unloading to be completed in the most cost-efficient manner for the owner. If problems occur, tractor-trailers will be totally prohibited, and owners moving in or out will be forced to insist that their moving company use a small two-axle truck to transfer their possessions to or from the moving company depot.

- c. **HOURS OF OPERATION:** Hours of operation shall be 8 to 5pm, Monday through Friday. Reasonable accommodation may be granted for weekend work that is quiet, takes place only inside of unit, and does not disrupt the condominium community. Only quiet work is allowed and noise shall not be generated after 4:00 p.m.

- d. **LOADING, UNLOADING AND PARKING:** Contractors may load and unload materials near the unit building for not more than 30 minutes and then must park their vehicles in the parking spaces near the front entry gate and display a

- dashboard Contractor Parking Authorization that has been provided for that purpose to the hiring owner. No parking allowed beyond (east of) the clubhouse.
- e. DAILY CLEANING: Walkways, elevators and other areas that have been soiled by the construction work must be cleaned daily and returned to the condition that they were found before the work of the day began.

20. Occupancy by Non-related Guests

Occupancy by non-related guests or donated charitable use when owners are not present is permitted as set forth in Section 15.4, Page 26 of the Condominium Declaration. There must be (10) days written notice to the association with no more than two occupancies per year. Each occupancy is limited to one week unless prior written approval is given by the Board of Directors.

21. Calendar Restrictions for Renovation Projects

No renovation projects may occur between December 15th and April 30th, each year, to alleviate the crowding of vehicles and noise of construction during the busy months when most of the owners are in residence. A renovation project is one that entails noise generating activities which may include removal/installation/reconstruction of walls, hard flooring materials, cabinetry, building materials and/or the need for dumpster removal services, including projects that require the onsite sawing or fabrication of materials that are being installed in the unit.
